# Spectrum predictors

- ACD (RSC Chemical Database Service, *EPSRC funded*):
  - <http://cds.rsc.org/>
    - Free to academic users
    - Multinuclear spectrum prediction
- *Chemdraw* also has chemical shift prediction built-in (often widely available but less reliable/comprehensive).
- *Other commercial packages available...* NMR Predict (Mnova) comparable to ACD predictors, etc...?

# NMR Wikipedia

“**NMR Wiki** is an effort to promote *sharing information, know-how and wisdom* among researchers working in the field of Magnetic Resonance”
